FOR IMMEDIATE RELEASE:

Pareto Consulting Joins the Six Disciplines Business Coaching Network

Pittsburgh-based Firm Sees Growth through Strategy Execution Coaching Program

FINDLAY, OHIO - April 20, 2009 — Six Disciplines announced today that it has added Pittsburgh-based Pareto Consulting to its nationwide network of business coaching organizations that offer the Six Disciplines® strategy execution program to its clients. Six Disciplines is unique in the burgeoning industry of business coaching because of its completeness, which involves the synergy of a repeatable business-building methodology, accountability coaching, an execution software system, and a shared community to accelerate organizational learning.

“Forward-looking CEOs are starting to understand that their biggest challenge is not what they think it is,” said Gary Harpst, founder and CEO of Six Disciplines. “They’re finally figuring out that it’s all about the *balance* of strategy and execution,” “Pareto Consulting understands the tremendous opportunity ahead of them with Six Disciplines, and because of their expertise and proven success, we’re excited to welcome Pareto to our coaching network.”

“Being able to offer the Six Disciplines Program to our clients adds an adjacent service focused on execution to our consulting practice and the marketplace desires an execution-focused service” said Fiore Londino, Partner with Pareto Consulting. “By using Six Disciplines, our clients will be able to connect their vision to their strategies, and align their plans and activities for more consistent and predictable execution,” said Sherryl Nufer, Partner with Pareto Consulting.

As an introduction to the Greater Pittsburgh area, Pareto Consulting will be hosting an exclusive presentation by Six Disciplines CEO Gary Harpst on June 3, 2009, from 8:00 am – 10:00 am, at the Regional Learning Alliance, 850 Cranberry Woods Drive, Cranberry Township, PA 16066. The event in Pittsburgh is a continuation of Harpst’s 50-city speaking tour. His insightful presentation, “Economic Acceleration: Breaking the 3% Speed Limit” is based upon his best-selling book, *Six Disciplines Execution Revolution*. To register for the event, visit: <http://50citypittsburgh.eventbrite.com>.
